"Risk Factors" and elsewhere in this report and in the Company's Annual Report on Form 10-K for the fiscal year ended July 1, 2023. These factors are not necessarily all of the factors that could cause actual results to differ materially from those expressed in any of our forward-looking statements.

**2. BASIS OF PRESENTATION AND ORGANIZATION*****Interim Financial Statements***

These unaudited interim condensed consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC"). In the opinion of management, such condensed consolidated financial statements contain all normal and recurring adjustments necessary to present fairly the condensed consolidated financial position, results of operations, comprehensive income (loss) and cash flows of the Company for the interim periods presented. In addition, certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the U.S. ("U.S. GAAP") have been condensed or omitted from this report as is permitted by the SEC's rules and regulations. However, the Company believes that the disclosures provided herein are adequate to prevent the information presented from being misleading. This report should be read in conjunction with the audited consolidated financial statements and notes thereto, included in the Company's Annual Report on Form 10-K for the year ended July 1, 2023 ("fiscal 2023") and other filings filed with the SEC.

The results of operations, cash flows and comprehensive income for the three months ended September 30, 2023 are not necessarily indicative of results to be expected for the entire fiscal year, which will end on June 29, 2024 ("fiscal 2024").

***Fiscal Periods***

The Company utilizes a 52-53 week fiscal year ending on the Saturday closest to June 30. Fiscal 2024 will be a 52-week period. Fiscal 2023, ended on July 1, 2023, was also a 52-week period. The first quarter of fiscal 2024 ended on September 30, 2023 and the first quarter of fiscal 2023 ended on October 1, 2022, both of which were 13-week periods.

***Covid-19 Pandemic***

The Covid-19 pandemic has resulted in varying degrees of business disruption for the Company since it began in fiscal 2020 and has impacted all regions around the world, resulting in restrictions and shutdowns implemented by national, state, and local authorities. Such disruptions continued during the first half of fiscal 2023, and the Company's results in Greater China were adversely impacted as a result of the Covid-19 pandemic. Starting in December 2022, certain government restrictions were lifted in the region and business trends improved. In the first quarter of fiscal 2024, the Covid-19 pandemic did not materially impact our business or operating results. We continue to monitor the latest developments regarding the Covid-19 pandemic and potential impacts on our business, operating results and outlook.

***Use of Estimates***

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the condensed consolidated financial statements and footnotes thereto. Actual results could differ from estimates in amounts that may be material to the financial statements.

Significant estimates inherent in the preparation of the condensed consolidated financial statements include reserves for the realizability of inventory; asset retirement obligations; customer returns, end-of-season markdowns and operational

chargebacks; useful lives and impairments of long-lived tangible and intangible assets; accounting for income taxes and related uncertain tax positions; accounting for business combinations; the valuation of stock-based compensation awards and related expected forfeiture rates; reserves for restructuring; and reserves for litigation and other contingencies, amongst others.

**Principles of Consolidation**

These unaudited interim condensed consolidated financial statements include the accounts of the Company and all 100% owned and controlled subsidiaries. All intercompany transactions and balances are eliminated in consolidation.

**Share Repurchases**

The Company accounts for stock repurchases by allocating the repurchase price to common stock and retained earnings. Under Maryland law, the Company's state of incorporation, there are no treasury shares. All repurchased shares are authorized but unissued shares and these shares may be issued in the future for general corporate and other purposes. The Company may terminate or limit the stock repurchase program at any time. The Company accrues for the shares purchased under the share repurchase plan based on the trade date. Purchases of the Company's common stock are executed through open market purchases, including through purchase agreements under Rule 10b5-1. Effective January 1, 2023, the Company is subject to a 1% excise tax on net share repurchases as part of the Inflation Reduction Act of 2022, which is recorded in Retained earnings as part of Stockholders' Equity.

**Supplier Finance Program**

To improve our working capital efficiency, the Company makes available to certain suppliers a voluntary supply chain finance ("SCF") program that enables our suppliers to sell their receivables from the Company to a global financial institution on a non-recourse basis at a rate that leverages our credit rating. The Company does not have the ability to refinance or modify payment terms to the global financial institution through the SCF program. No guarantees are provided by the Company or any of our subsidiaries under the SCF program. The Company's payment obligations, including the amounts due and payment terms, which generally do not exceed 90 days, are not impacted by suppliers' participation in the program. As of September 30, 2023 and July 1, 2023, \$285.6 million and \$305.4 million, respectively, was related to suppliers eligible to participate in the Company's SCF program and presented within Accounts payable on the Consolidated Balance Sheets.

**3. RECENT ACCOUNTING PRONOUNCEMENTS****Recently Adopted Accounting Pronouncements**

In September 2022, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2022-04, "Liabilities—Supplier Finance Programs (Subtopic 405-50)", which is intended to enhance the transparency of supplier finance programs. The ASU requires the buyer in a supplier finance program to disclose sufficient information about the program in order to allow a user of financial statements to understand the program's nature, activity during the period, changes from period to period, and potential magnitude. The Company adopted ASU 2022-04 as of the beginning of fiscal 2024. The adoption of ASU 2022-04 did not have an impact on the Company's interim condensed consolidated financial statements other than the new disclosure requirements. Refer to Note 2, "Basis of Presentation and Organization", for additional information.

**Recently Issued Accounting Pronouncements**

The Company has considered all new accounting pronouncements and have concluded that there are no new pronouncements that may have a material impact on our results of operations, financial condition or cash flows based on current information.

## Notes to Condensed Consolidated Financial Statements (continued)

**4. REVENUE**

The Company recognizes revenue primarily from sales of the products of its brands through retail and wholesale channels, including e-commerce sites. The Company also generates revenue from royalties related to licensing its trademarks, as well as sales in ancillary channels. In all cases, revenue is recognized upon the transfer of control of the promised products or services to the customer, which may be at a point in time or over time. Control is transferred when the customer obtains the ability to direct the use of and obtain substantially all of the remaining benefits from the products or services. The amount of revenue recognized is the amount of consideration to which the Company expects to be entitled, including estimation of sale terms that may create variability in the consideration. Revenue subject to variability is constrained to an amount which will not result in a significant reversal in future periods when the contingency that creates variability is resolved.

The Company recognizes revenue in its retail stores, including concession shop-in-shops, at the point-of-sale when the customer obtains physical possession of the products. Digital revenue from sales of products ordered through the Company's e-commerce sites is recognized upon delivery and receipt of the shipment by its customers and includes shipping and handling charges paid by customers. Retail and digital revenues are recorded net of estimated returns, which are estimated by developing an expected value based on historical experience. Payment is due at the point of sale.

Gift cards issued by the Company are recorded as a liability until redeemed by the customer, at which point revenue is recognized. The Company also uses historical information to estimate the amount of gift card balances that will never be redeemed and recognizes that amount as revenue over time in proportion to actual customer redemptions if the Company does not have a legal obligation to remit unredeemed gift cards to any jurisdiction as unclaimed property.

Certain of the Company's retail operations use sales incentive programs, such as customer loyalty programs and the issuance of coupons. Loyalty programs provide the customer a material right to acquire additional products and give rise to the Company having a separate performance obligation. Additionally, certain products sold by the Company include an assurance warranty that is not considered a separate performance obligation. These programs are immaterial individually and in the aggregate.

The Company recognizes revenue within the wholesale channel at the time title passes and risk of loss is transferred to customers, which is generally at the point of shipment of products but may occur upon receipt of the shipment by the customer in certain cases. Payment is generally due 30 to 90 days after shipment. Wholesale revenue is recorded net of estimates for returns, discounts, end-of-season markdowns, cooperative advertising allowances and other consideration provided to the customer. Discounts are based on contract terms with the customer, while cooperative advertising allowances and other consideration may be based on contract terms or negotiated on a case-by-case basis. Returns and markdowns generally require approval from the Company and are estimated based on historical trends, current season results and inventory positions at the wholesale locations, current market and economic conditions as well as, in select cases, contractual terms. The Company's historical estimates of these variable amounts have not differed materially from actual results.

The Company recognizes licensing revenue over time during the contract period in which licensees are granted access to the Company's trademarks. These arrangements require licensees to pay a sales-based royalty and may include a contractually guaranteed minimum royalty amount. Revenue for contractually guaranteed minimum royalty amounts is recognized ratably over the license year and any excess sales-based royalties are recognized as earned once the minimum royalty threshold is achieved. Payments from the customer are generally due quarterly in an amount based on the licensee's sales of goods bearing the licensed trademarks during the period, which may differ from the amount of revenue recorded during the period thereby generating a contract asset or liability. Contract assets and liabilities and contract costs related to the licensing arrangements are immaterial as the licensing business represents approximately 1% of total net sales in the three months ended September 30, 2023.

The Company has elected a practical expedient not to disclose the remaining performance obligations that are unsatisfied as of the end of the period related to contracts with an original duration of one year or less or variable consideration related to sales-based royalty arrangements. There are no other contracts with transaction price allocated to remaining performance obligations other than future minimum royalties as discussed above, which are not material.

Other practical expedients elected by the Company include (i) assuming no significant financing component exists for any contract with a duration of one year or less, (ii) accounting for shipping and handling as a fulfillment activity within SG&A expense regardless of the timing of the shipment in relation to the transfer of control and (iii) excluding sales and value added tax from the transaction price.

**Deferred Revenue**

Deferred revenue results from cash payments received or receivable from customers prior to the transfer of the promised goods or services, and is generally comprised of unredeemed gift cards, net of breakage which has been recognized. Additional deferred revenue may result from sales-based royalty payments received or receivable which exceed the revenue recognized during the contractual period. The balance of such amounts as of September 30, 2023 and July 1, 2023 was \$40.4 million and \$43.0 million, respectively, which were primarily recorded within Accrued liabilities on the Company's Condensed Consolidated Balance Sheets and are generally expected to be recognized as revenue within a year. For the three months ended September 30, 2023, net sales of \$14.6 million were recognized from amounts recorded as deferred revenue as of July 1, 2023. For the three months ended October 1, 2022, net sales of \$11.5 million were recognized from amounts recorded as deferred revenue as of July 2, 2022.

**8. DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES**

The majority of the Company's purchases of finished goods are denominated in U.S. dollars, which limits the Company's exposure to the transactional effects of foreign currency exchange rate fluctuations. However, the Company is exposed to foreign currency exchange risk related to its sale of U.S. dollar inventory to foreign operating subsidiaries in local currency, as well as risk related to various cross-currency intercompany loans and payables, and translation risk. The Company is also exposed to foreign currency risk related to changes in the U.S. dollar value of its net investment in foreign subsidiaries and interest rate risk attributed to changes in the benchmark interest rates on the Company's debt obligations, including future issuances. The Company uses derivative financial instruments to manage these risks. These derivative transactions are in accordance with the Company's risk management policies. The Company does not enter into derivative transactions for speculative or trading purposes.

The Company records all derivative contracts at fair value on the Condensed Consolidated Balance Sheets. The fair values of foreign currency derivatives and interest rate derivatives are based on the forward curves of the specific indices upon which settlement is based and include an adjustment for the counterparty's or Company's credit risk. Judgment is required of management in developing estimates of fair value. The use of different market assumptions or methodologies could affect the estimated fair value.

For derivative instruments that qualify for hedge accounting, the changes in the fair value of these instruments are either (i) offset against the changes in fair value of the hedged assets or liabilities through earnings or (ii) recognized as a component of Accumulated other comprehensive income (loss) ("AOCI") until the hedged item is recognized in earnings, depending on whether the derivative is being used to hedge changes in fair value or cash flows. For derivative instruments that are designated

## Notes to Condensed Consolidated Financial Statements (continued)

as a net investment hedge, the changes in the fair value of the instruments are recognized as a component of AOCI, and upon discontinuation of the hedge remain in AOCI until the net investment is sold or liquidated.

Each derivative instrument entered into by the Company that qualifies for hedge accounting is expected to be highly effective at reducing the risk associated with the exposure being hedged. For each derivative that is designated as a hedge, the Company documents the related risk management objective and strategy, including identification of the hedging instrument, the hedged item and the risk exposure, as well as how hedge effectiveness will be assessed over the term of the instrument. The extent to which a hedging instrument has been and is expected to remain highly effective in achieving offsetting changes in fair value or cash flows is assessed and documented by the Company on at least a quarterly basis.

If it is determined that a derivative instrument has not been highly effective and will continue not to be highly effective in hedging the designated exposure, hedge accounting is discontinued, and further gains (losses) are recognized in earnings within foreign currency gains (losses). Upon discontinuance of hedge accounting, the cumulative change in fair value of cash flow derivatives previously recorded in AOCI is recognized in earnings when the related hedged item affects earnings, consistent with the original hedging strategy, unless the forecasted transaction is no longer probable of occurring, in which case the accumulated amount is immediately recognized in earnings within foreign currency gains (losses).

As a result of the use of derivative instruments, the Company may be exposed to the risk that the counterparties to such contracts will fail to meet their contractual obligations. To mitigate this counterparty credit risk, the Company has a policy of only entering into contracts with carefully selected financial institutions based upon an evaluation of their credit ratings, among other factors.

The fair values of the Company's derivative instruments are recorded on its Condensed Consolidated Balance Sheets on a gross basis. For cash flow reporting purposes, the Company classifies proceeds received or amounts paid upon the settlement of a derivative instrument in the same manner as the related item being hedged, primarily within cash from operating activities.

**Hedging Portfolio**

The Company enters into forward currency contracts primarily to reduce its risks related to exchange rate fluctuations on foreign currency denominated inventory transactions, as well as various cross-currency intercompany loans and payables. To the extent its derivative contracts designated as cash flow hedges are highly effective in offsetting changes in the value of the hedged items, the related gains (losses) are initially deferred in AOCI and subsequently recognized in the Consolidated Statements of Operations as part of the cost of the inventory purchases being hedged within Cost of sales, when the related inventory is sold to a third party. Current maturity dates range from October 2023 to June 2025. Forward foreign currency exchange contracts designated as fair value hedges and associated with intercompany and other contractual obligations are recognized within Other expense (income) on the Company's Condensed Consolidated Statement of Operations, generally in the period in which the related balances being hedged are revalued. The maturity date of most instruments held as of September 30, 2023 are in November 2023, and such contracts are typically renewed upon maturity if the related balance has not been settled.

The Company also enters into interest rate derivative contracts, with current maturity dates in March 2024, to reduce its risks related to changes in the benchmark interest rates on its debt obligations, including future issuances. Any premiums related to these instruments are excluded from the Company's measurement of hedge effectiveness, and are amortized over the period between the hedge execution and the contract maturity. To the extent its interest rate derivative contracts designated as cash flow hedges are highly effective in offsetting changes in the value of the hedged items, the related gains (losses) are initially deferred in AOCI and subsequently recognized in the Consolidated Statements of Operations as interest income (expense) in the same periods during which the hedged forecasted interest payments associated with the Company's borrowings are recorded in earnings.

The Company also enters into cross-currency swaps to reduce its risks related to exchange rate fluctuations on net investments in foreign subsidiaries. The related gains (losses) are deferred in AOCI until the net investment is sold or liquidated, and current maturity dates range from April 2025 to March 2032.

<sup>(2)</sup> Represents forward interest rate contracts ("IC") designated as derivative instruments in cash flow hedging relationships.

<sup>(3)</sup> Represents cross currency swap contracts ("CCS") designated as derivative instruments in net investment hedging relationships.

The Company expects that \$40.8 million of net derivative gain related to inventory purchases and interest rates included in Accumulated other comprehensive income at September 30, 2023 will be reclassified into earnings within the next 12 months. This amount will vary due to fluctuations in foreign currency exchange rates and benchmark interest rates.

The Company assesses the cross-currency swaps used as a net investment hedges under the spot method. This results in the cross-currency basis spread being excluded from the assessment of hedge effectiveness, and recorded as incurred as a reduction in interest expense in the Company's consolidated statements of operations. Accordingly, the Company recorded net interest income of \$7.2 million and \$6.4 million during three months ended September 30, 2023 and October 1, 2022, respectively.

## Notes to Condensed Consolidated Financial Statements (continued)

## 9. EARNINGS PER SHARE

Basic net income per share is calculated by dividing net income by the weighted-average number of shares outstanding during the period. Diluted net income per share is calculated similarly but includes potential dilution from the exercise of stock options and restricted stock units and any other potentially dilutive instruments, only in the periods in which such effects are dilutive under the treasury stock method.

The following is a reconciliation of the weighted-average shares outstanding and calculation of basic and diluted earnings per share:

	Three Months Ended	
	September 30, 2023	October 1, 2022
	(millions, except per share data)	
<b>Net income (loss)</b>	<b>\$ 195.0</b>	<b>\$ 195.3</b>
<b>Weighted-average basic shares</b>	<b>228.3</b>	<b>241.5</b>
Dilutive securities:		
Effect of dilutive securities	4.2	5.3
<b>Weighted-average diluted shares</b>	<b>232.5</b>	<b>246.8</b>
<b>Net income (loss) per share:</b>		
Basic	<b>\$ 0.85</b>	<b>\$ 0.81</b>
Diluted	<b>\$ 0.84</b>	<b>\$ 0.79</b>

Earnings per share amounts have been calculated based on unrounded numbers. Options to purchase shares of the Company's common stock at an exercise price greater than the average market price of the common stock during the reporting period are anti-dilutive and therefore not included in the computation of diluted net income (loss) per common share. In addition, the Company has outstanding restricted stock unit awards that are issuable only upon the achievement of certain performance goals. Performance-based restricted stock unit awards are included in the computation of diluted shares only to the extent that the underlying performance conditions and any applicable market condition modifiers (i) are satisfied as of the end of the reporting period or (ii) would be considered satisfied if the end of the reporting period were the end of the related contingency period and the result would be dilutive under the treasury stock method. As of September 30, 2023 and October 1, 2022, there were 3.7 million and 6.2 million, respectively, of additional shares issuable upon exercise of anti-dilutive options and contingent vesting of performance-based restricted stock unit awards, which were excluded from the diluted share calculations.

Expected term (years)	4.9	4.8
Expected volatility	44.7 %	48.7 %
Risk-free interest rate	4.5 %	3.2 %

<b>Change due to performance condition achievement</b>	<b>0.1</b>

<b>Forfeited</b>	<b>—</b>
<b>Non-vested at September 30, 2023</b>	<b>1.2</b>

The PRsU awards included in the non-vested amount are based on certain Company-specific financial metrics. The effect of the change due to performance condition on the non-vested amount is recognized at the conclusion of the performance period, which may differ from the date on which the award vests.

The weighted-average grant-date fair value per share of PRsU awards granted during the three months ended September 30, 2023 and October 1, 2022 was \$33.64 and \$35.27, respectively.

On August 30, 2023, the Company entered into a definitive credit agreement (such agreement, the "New Term Loan Credit Agreement") whereby Bank of America, N.A. as administrative agent, and the other agents party thereto, and a syndicate of banks and financial institutions have committed to lend the Company, subject to the satisfaction or waiver of the conditions set forth in the Term Loan Agreement, a \$1.05 billion unsecured term loan facility maturing three years after the term loans thereunder are borrowed (the "Three-Year Term Loan Facility") and a \$350 million term loan facility maturing five years after the term loans thereunder are borrowed (the "Five-Year Term Loan Facility"; and collectively with the Three-Year Term Loan Facility, the "New Term Loan Facilities"). The Company plans to use borrowings under the New Term Loan Facilities to pay a portion of the consideration for the Capri Acquisition and to pay related fees and expenses.

Borrowings under the New Term Loan Facilities bear interest at a rate per annum equal to, at the Company's option, either (a) an alternate base rate or (b) a rate based on the forward-looking Secured Overnight Financing Rate ("SOFR") term rate administered by CME Group Benchmark Administration Limited (or any successor administrator) plus, in each case, an applicable margin. The applicable margin will be adjusted by reference to a grid based on the ratio of (a) consolidated debt (with certain customary deductions for unrestricted cash and permitted investments) to (b) consolidated EBITDAR. The applicable margin will initially be (x) in the case of the Three-Year Term Loan Facility, 0.250% for base rate loans and 1.250% for SOFR loans and (y) in the case of the Five-Year Term Loan Facility, 0.375% for base rate loans and 1.375% for SOFR loans. Additionally, the Company will pay a ticking fee of 0.15% on the average daily amount of the unused commitments of the New Term Loan Facilities. There were no outstanding borrowings on the New Term Loan Facilities as of September 30, 2023.

**\$2.0 Billion Revolving Credit Facility**

On August 30, 2023, pursuant to that certain Amendment No. 1 to Credit Agreement (the "Amendment"), the Company amended its Existing Credit Agreement (as defined below), originally dated as of May 11, 2022, among the Company, as borrower, certain of our subsidiaries, as guarantors, Bank of America, N.A., as administrative agent, and the financial institutions parties thereto as lenders (the "Existing Credit Agreement", and as amended by the Amendment, the "Amended Credit Agreement"). Under the Amended Credit Agreement, a syndicate of financial institutions and other lenders provided increases to the aggregate commitments to the revolving facility under the Existing Credit Agreement from \$1.25 billion to \$2.0 billion (the "Revolving Facility"). The Revolving Facility will mature on May 11, 2027.

Borrowings under the Revolving Facility bear interest at a rate per annum equal to, at the Company's option, (i) for borrowings in U.S. Dollars, either (a) an alternate base rate or (b) a rate based on the forward-looking SOFR term rate administered by CME Group Benchmark Administration Limited (or any successor administrator satisfactory to the administrative agent), (ii) for borrowings in Euros, the Euro Interbank Offered Rate, (iii) for borrowings in Pounds Sterling, the Sterling Overnight Index Average Reference Rate and (iv) for borrowings in Japanese Yen, the Tokyo Interbank Offer Rate, plus, in each case, an applicable margin. The applicable margin will be adjusted by reference to a grid (the "Pricing Grid") based on the ratio of (a) consolidated debt to (b) consolidated EBITDAR. Additionally, the Company will pay facility fees, calculated at a rate per annum determined in accordance with the Pricing Grid, on the full amount of the Revolving Facility, payable quarterly in arrears, and certain fees with respect to letters of credit that are issued. The Revolving Facility may be used to finance the working capital needs, capital expenditures, permitted investments, share purchases, dividends, and other general corporate purposes of the Company and its subsidiaries (which may include commercial paper backup). Additionally, up to \$250 million of the Revolving Facility will be available on a funds certain basis to fund the purchase price of the Capri Acquisition and to pay related fees and expenses. There were no outstanding borrowings on the Revolving Facility as of September 30, 2023.

The 2027 Term Loan amortizes in an amount equal to 5.00% per annum, with payments made quarterly. As of September 30, 2023, \$25.0 million of the 2027 Term Loan is included in Current debt on the Consolidated Balance Sheets. Borrowings under the 2027 Term Loan bear interest at a rate per annum equal to, at the Company's option, either (i) an alternate base rate or (ii) a term secured overnight financing rate plus, in each case, an applicable margin. Under the Amended Credit Agreement, we are required to comply on a quarterly basis with a maximum net leverage ratio of 4.00:1.00. After giving effect to the Capri Acquisition, the Company will be required under the Amended Credit Agreement and the New Term Loan Agreement to comply on a quarterly basis with a maximum net leverage ratio of (i) from and including the closing date of the Capri Acquisition to but excluding June 28, 2025, 4.75 to 1.00, (ii) from and including June 28, 2025 to but excluding June 27, 2026, 4.50 to 1.00, and (iii) from and including June 27, 2026 and thereafter, 4.00 to 1.00. As of September 30, 2023, we were in compliance with these restrictions and covenants, have met such financial ratios and have met all debt payment obligations.

**Fair Value Considerations**

At September 30, 2023 the fair value of the 2032 Senior Notes, 2027 Senior Notes, and 2025 Senior Notes was approximately \$367.3 million, \$366.6 million and \$295.5 million, respectively, based on external pricing data, including available quoted market prices of these instruments, and consideration of comparable debt instruments with similar interest rates and trading frequency, among other factors, and is classified as Level 2 measurements within the fair value hierarchy. At July 1, 2023, the fair value of the 2032 Senior Notes, 2027 Senior Notes and 2025 Senior Notes was approximately \$399.5 million, \$371.7 million and \$295.1 million, respectively.

**12. FAIR VALUE MEASUREMENTS**

The Company categorizes its assets and liabilities, based on the priority of the inputs to the valuation technique, into a three-level fair value hierarchy as set forth below. The three levels of the hierarchy are defined as follows:

Level 1 — Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2 — Observable inputs other than quoted prices included in Level 1. Level 2 inputs include quoted prices for identical assets or liabilities in non-active markets, quoted prices for similar assets or liabilities in active markets, and inputs other than quoted prices that are observable for substantially the full term of the asset or liability.

Level 3 — Unobservable inputs reflecting management's own assumptions about the input used in pricing the asset or liability. The Company does not have any Level 3 investments.

The following table shows the fair value measurements of the Company's financial assets and liabilities at September 30, 2023 and July 1, 2023:

<sup>(1)</sup> Cash equivalents consist of money market funds and time deposits with maturities of three months or less at the date of purchase. Due to their short-term maturity, management believes that their carrying value approximates fair value.

<sup>(2)</sup> Short-term investments are recorded at fair value, which approximates their carrying value, and are primarily based upon quoted vendor or broker priced securities in active markets.

<sup>(3)</sup> The fair value of these hedges is primarily based on the forward curves of the specific indices upon which settlement is based and includes an adjustment for the counterparty's or Company's credit risk.

Refer to Note 11, "Debt", for the fair value of the Company's outstanding debt instruments.

**Non-Financial Assets and Liabilities**

The Company's non-financial instruments, which primarily consist of goodwill, intangible assets, right-of-use assets and property and equipment, are not required to be measured at fair value on a recurring basis and are reported at carrying value. However, on a periodic basis whenever events or changes in circumstances indicate that their carrying value may not be fully recoverable (and at least annually for goodwill and indefinite-lived intangible assets), non-financial instruments are assessed for impairment and, if applicable, written-down to and recorded at fair value, considering market participant assumptions. There were no impairment charges recorded during the three months ended September 30, 2023 or three months ended October 1, 2022.

Although the Company's litigation can result in large monetary awards, such as when a civil jury is allowed to determine compensatory and/or punitive damages, the Company believes that the outcome of all pending legal proceedings in the aggregate will not have a material effect on the Company's business or condensed consolidated financial statements.

## Capri Holdings Limited Acquisition

On August 10, 2023, the Company entered into an Agreement and Plan of Merger (the "Merger Agreement") by and among the Company, Sunrise Merger Sub, Inc., a direct wholly owned subsidiary of Tapestry, and Capri Holdings Limited ("Capri") for \$57.00 per share in cash for a total of approximately \$8.5 billion (the "Capri Acquisition"). ## 2025 Growth Strategy

Building on the success of the strategic growth plan from fiscal 2020 through fiscal 2022 (the "Acceleration Program"), in the first quarter of fiscal 2023, the Company introduced the 2025 growth strategy ("*futurespeed*"), designed to amplify and extend the competitive advantages of its brands, with a focus on four strategic priorities:

- **Building Lasting Customer Relationships:** The Company's brands aim to leverage Tapestry's transformed business model to drive customer lifetime value through a combination of increased customer acquisition, retention and reactivation.
- **Fueling Fashion Innovation & Product Excellence:** The Company aims to drive sustained growth in core handbags and small leathersgoods, while accelerating gains in footwear and lifestyle products.
- **Delivering Compelling Omni-Channel Experiences:** The Company aims to extend its omni-channel leadership to meet the customer wherever they shop, delivering growth online and in stores.
- **Powering Global Growth:** The Company aims to support balanced growth across regions, prioritizing North America and China, its largest markets, while capitalizing on opportunities in under-penetrated geographies such as Southeast Asia and Europe.

## GLOBAL ECONOMIC CONDITIONS AND INDUSTRY TRENDS

The environment in which we operate is subject to a number of different factors driving global consumer spending. Consumer preferences, macroeconomic conditions, foreign currency fluctuations and geopolitical events continue to impact overall levels of consumer travel and spending on discretionary items, with inconsistent patterns across channels and geographies.

We will continue to monitor the below trends and evaluate and adjust our operating strategies and cost management opportunities to mitigate the related impact on our results of operations, while remaining focused on the long-term growth of our business and protecting the value of our brands.

For a detailed discussion of significant risk factors that have the potential to cause our actual results to differ materially from our expectations, see Part I, Item 1A. "Risk Factors" herein and as disclosed in our Annual Report on Form 10-K for the year ended July 1, 2023.

### *Current Macroeconomic Conditions and Outlook*

During the first quarter of fiscal 2024, the macroeconomic environment remained challenging and volatile. Several organizations that monitor the world's economy, including the International Monetary Fund, continue to forecast growth in the global economy. Some of these organizations have recently revised the forecast down slightly since the fourth quarter of fiscal 2023. The updated forecast is still below the historical average, which is reflective of the current volatile environment, including higher than anticipated inflation, tighter monetary and fiscal policies aiming to lower inflation, financial market volatility, and the negative economic impacts of geopolitical instability in certain regions of the world.

In the first quarter of fiscal 2024, freight costs have continued to moderate as compared to prior year, resulting in lower freight expense of approximately \$21.2 million, and positively impacting gross margin by approximately 150 basis points when compared to the first quarter of fiscal 2023.

In the first quarter of fiscal 2024, the U.S. Dollar continued to strengthen as compared to foreign currencies in regions where we conduct our business. This trend has resulted in adverse impacts to our business including, but not limited to, decreased Net sales of \$19.2 million, negative impact to gross margin of approximately 20 basis points, and negative impact to operating margin of approximately 40 basis points.

Currency volatility, political instability and potential changes to trade agreements or duty rates may also contribute to a worsening of the macroeconomic environment or adversely impact our business. Since fiscal 2019, the U.S. and China have

both imposed tariffs on the importation of certain product categories into the respective country, with limited progress in negotiations to reduce or remove the tariffs.

In response to the current environment, the Company continues to take strategic actions considering near-term exigencies and remains committed to maintaining the health of the brands and business.

#### ***Covid-19 Pandemic***

The Covid-19 pandemic has resulted in varying degrees of business disruption for the Company since it began in fiscal 2020 and has impacted all regions around the world, resulting in restrictions and shutdowns implemented by national, state, and local authorities. Such disruptions continued during the first half of fiscal 2023, and the Company's results in Greater China were adversely impacted as a result of the Covid-19 pandemic. Starting in December 2022, certain government restrictions were lifted in the region and business trends improved. In the first quarter of fiscal 2024, the Covid-19 pandemic did not materially impact our business or operating results. We continue to monitor the latest developments regarding the Covid-19 pandemic and potential impacts on our business, operating results and outlook.

#### ***Tax Legislation***

On August 16, 2022, the Inflation Reduction Act of 2022 was signed into law by the Biden Administration, with tax provisions primarily focused on implementing a 15% corporate alternative minimum tax on global adjusted financial statement income ("CAMT") and a 1% excise tax on share repurchases. The CAMT is effective beginning fiscal 2024 and is not expected to have a material impact on the Company's rate, however we will continue to monitor as additional guidance becomes available. With respect to the 1% excise tax on net share repurchases, this provision of the Inflation Reduction Act was effective on January 1, 2023 and did not have a material impact on our financial statements.

On December 12, 2022, the European Union member states reached an agreement to implement the OECD's reform of international taxation known as Pillar Two Global Anti-Base Erosion ("GloBE") Rules, which broadly mirrors the Inflation Reduction Act by imposing a 15% global minimum tax on multinational companies. GloBE is anticipated to be effective beginning fiscal 2025. The US Treasury and the OECD continue to seek input and release guidance, so it is unclear at this time what, if any, impact it will have on the Company's tax rate and financial results. We will continue to evaluate its impact as further information becomes available.

#### ***Seasonality***

The Company's results are typically affected by seasonal trends. During the first fiscal quarter, we typically build inventory for the winter and holiday season. In the second fiscal quarter, working capital requirements are reduced substantially as we generate higher net sales and operating income, especially during the holiday season.

Fluctuations in net sales, operating income and operating cash flows of the Company in any fiscal quarter may be affected by the timing of wholesale shipments and other events affecting retail sales, including weather and macroeconomic events, and pandemics such as Covid-19.

The Company includes inbound product-related transportation costs from our service providers within Cost of sales. The Company, similar to some companies, includes certain transportation-related costs due to our distribution network in SG&A expenses rather than in Cost of sales; for this reason, our gross margins may not be comparable to that of entities that include all costs related to their distribution network in Cost of sales.

## Selling, General and Administrative Expenses ("SG&A")

SG&A as a percentage of net sales increased 140 basis points to 54.5% compared to 53.1% during the first quarter of fiscal 2023. This increase in SG&A as a percentage of net sales was primarily due to increased occupancy costs, higher information technology costs, and higher marketing spend, partially offset by a decrease in distribution costs.

Excluding those items affecting comparability, SG&A expenses increased 13.2% or \$13.5 million to \$116.5 million in the first quarter of fiscal 2024 as compared to \$103.0 million in the first quarter of fiscal 2023.

<b>Tapestry</b>	<b>\$ 253.2</b>	<b>16.7</b>	<b>\$ 254.3</b>	<b>16.9</b>	<b>\$ (1.1)</b>	<b>(0.4)</b>

Operating income decreased \$1.1 million to \$253.2 million in the first quarter of fiscal 2024 as compared to \$254.3 million in the first quarter of fiscal 2023. Operating margin was 16.7% in the first quarter of fiscal 2024 as compared to 16.9% in the first quarter of fiscal 2023. Excluding items affecting comparability of \$19.6 million in the first quarter of fiscal 2024, operating income increased \$18.5 million to \$272.8 million in the first quarter of fiscal 2024 from \$254.3 million in the first quarter of fiscal 2023; and operating margin increased 110 basis points to 18.0% in the first quarter of fiscal 2024 as compared to 16.9% in the first quarter of fiscal 2023. This increase in operating margin was primarily attributed to a 250 basis points increase in gross margin partially offset by an increase of 140 basis points in SG&A as a percentage of sales.

- *Coach Operating Income* increased \$32.1 million to \$371.3 million in the first quarter of fiscal 2024, resulting in an operating margin increase of 180 basis points to 32.1%, as compared to \$339.2 million and 30.3%, respectively, in the first quarter of fiscal 2023. This increase in operating margin was primarily attributed to:
  - *Gross Margin*, increased 270 basis points mainly due to lower freight costs and net pricing improvements;
  - *SG&A expenses as a percentage of net sales*, increased 90 basis points mainly due to higher marketing spend and higher information technology costs, partially offset by a decrease in distribution costs.

- *Kate Spade Operating Income* increased \$3.4 million to \$26.6 million in the first quarter of fiscal 2024, resulting in an operating margin increase of 160 basis points to 8.8%, as compared to \$23.2 million and operating margin of 7.2% in the first quarter of fiscal 2023. This increase in operating margin was primarily attributed to:
  - *Gross Margin*, increased 100 basis points mainly due to lower freight costs partially offset by unfavorable currency translation;
  - *SG&A expenses as a percentage of net sales*, decreased 60 basis points mainly due to lower marketing spend, partially offset by higher occupancy costs and higher information technology costs.
- *Stuart Weitzman Operating Loss* increased \$3.5 million to a loss of \$8.6 million in the first quarter of fiscal 2024, resulting in an operating margin decrease of 850 basis points to (16.3)%, as compared to an operating loss of \$5.1 million in the first quarter of fiscal 2023 and an operating margin of (7.8)%. This decrease in operating margin was primarily attributable to:
  - *Gross Margin*, increased 120 basis points primarily attributed to favorable channel mix, favorable currency translation, favorable geography mix and lower freight costs, partially offset by higher promotional activity;
  - *SG&A expenses as a percentage of net sales*, increased 970 basis points mainly due to deleverage of expenses on lower net sales. This increase in SG&A expenses as a percentage of net sales was mainly due to increased compensation costs, increased occupancy costs, and higher depreciation, partially offset by lower marketing spend.
- *Corporate Operating Loss* increased 32.1% or \$33.1 million to a loss of \$136.1 million in the first quarter of fiscal 2024. Excluding items affecting comparability, Corporate operating loss increased \$13.5 million to a loss of \$116.5 million from a loss of \$103.0 million in the first quarter of fiscal 2023. This increase in operating loss was attributed to an increase in SG&A expenses primarily due to increased occupancy costs, increased compensation costs, higher professional fees, and higher information technology costs.

**Interest Expense, net**

Net interest expense increased 79.9% or \$5.9 million to \$13.3 million in the first quarter of fiscal 2024 as compared to \$7.4 million in the first quarter of fiscal 2023. Excluding items affecting comparability, net interest expense decreased \$0.8 million to \$6.6 million from \$7.4 million in the first quarter of fiscal 2023. This decrease in Interest expense, net was mainly due higher interest income, the favorable impact of the net investment hedges, partially offset by higher interest on the term loan.

**Other Expense (Income)**

Other expense decreased \$9.3 million to \$1.4 million in the first quarter of fiscal 2024 as compared to \$10.7 million in the first quarter of fiscal 2023. This decrease in other expense was related to a decrease in foreign exchange losses.

**Provision (Benefit) for Income Taxes**

The effective tax rate was 18.2% in the first quarter of fiscal 2024 as compared to 17.3% in the first quarter of fiscal 2023. Excluding items affecting comparability, the effective tax rate was 18.3% in the first quarter of fiscal 2024. This increase in our effective tax rate was primarily attributable to the impact of vesting of equity compensation awards during the period partially offset by geographic mix of earnings.

**Net Income (Loss)**

Net income decreased 0.1% or \$0.3 million to \$195.0 million in the first quarter of fiscal 2024 as compared to \$195.3 million in the first quarter of fiscal 2023. **Net Income (Loss) per Share**

Net income per diluted share was \$0.84 in the first quarter of fiscal 2024 as compared to net income per diluted share of \$0.79 in the first quarter of fiscal 2023. Excluding items affecting comparability, net income per diluted share increased \$0.14 to \$0.93 in the first quarter of fiscal 2024 from \$0.79 in the first quarter of fiscal 2023, primarily due to higher net income and a decrease in shares outstanding.

## NON-GAAP MEASURES

The Company's reported results are presented in accordance with GAAP. The reported SG&A expenses, operating income, interest expense, provision for income taxes, net income and earnings per diluted share in the first quarter of fiscal 2024 reflect certain items affecting comparability, including the impact of Acquisition costs. There were no items affecting comparability in the first quarter of fiscal 2023. As a supplement to the Company's reported results, these metrics are also reported on a non-GAAP basis to exclude the impact of these items along with a reconciliation to the most directly comparable GAAP measures.

These non-GAAP performance measures were used by management to conduct and evaluate its business during its regular review of operating results for the periods affected. Management and the Company's Board utilized these non-GAAP measures to make decisions about the uses of Company resources, analyze performance between periods, develop internal projections and measure management performance. The Company's internal management reporting excluded these items. In addition, the human resources committee of the Company's Board uses these non-GAAP measures when setting and assessing achievement of incentive compensation goals.

The Company operates on a global basis and reports financial results in U.S. dollars in accordance with GAAP. Fluctuations in foreign currency exchange rates can affect the amounts reported by the Company in U.S. dollars with respect to its foreign revenues and profit. Accordingly, certain material increases and decreases in operating results for the Company and its segments have been presented both including and excluding currency fluctuation effects. These effects occur from translating foreign-denominated amounts into U.S. dollars and comparing to the same period in the prior fiscal year. Constant currency information compares results between periods as if exchange rates had remained constant period-over-period. The Company calculates constant currency revenue results by translating current period revenue in local currency using the prior year period's currency conversion rate.

We believe these non-GAAP measures are useful to investors and others in evaluating the Company's ongoing operating and financial results in a manner that is consistent with management's evaluation of business performance and understanding how such results compare with the Company's historical performance. Additionally, we believe presenting certain increases and decreases in constant currency provides a framework for assessing the performance of the Company's business outside the United States and helps investors and analysts understand the effect of significant year-over-year currency fluctuations. We believe excluding these items assists investors and others in developing expectations of future performance.

By providing the non-GAAP measures, as a supplement to GAAP information, we believe we are enhancing investors' understanding of our business and our results of operations. The non-GAAP financial measures are limited in their usefulness and should be considered in addition to, and not in lieu of, GAAP financial measures. Further, these non-GAAP measures may be unique to the Company, as they may be different from non-GAAP measures used by other companies.

For a detailed discussion on these non-GAAP measures, see the GAAP to Non-GAAP Reconciliation discussions above in this Item 2. "Management's Discussion and Analysis of Financial Condition and Results of Operations."

The \$185.8 million increase in changes in operating asset and liability balances were primarily driven by the following:

- Inventories were a use of cash of \$29.8 million in the first quarter of fiscal 2024 compared to a use of cash of \$181.9 million in the first quarter of fiscal 2023, primarily driven by lower in-transit inventory due to strategic decision to pull back on receipts as well as decreased freight costs.
- Other assets were a use of cash of \$29.7 million in the first quarter of fiscal 2024 compared to a use of cash of \$111.6 million in the first quarter of fiscal 2023, primarily driven by the change in mark to market on derivative assets, as well as lower prepaid expenses due to prepayment of capital expenditures for the west coast distribution center in the prior year.
- Accrued liabilities were a use of cash of \$62.0 million in the first quarter of fiscal 2024 compared to a use of cash of \$134.0 million in the first quarter of fiscal 2023, primarily driven by lower Annual Incentive Plan payments compared to prior year.
- Other liabilities were a use of cash of \$8.2 million in the first quarter of fiscal 2024 compared to a source of cash of \$42.9 million in the first quarter of fiscal 2023, primarily driven by the change in mark to market on derivative liabilities.

The \$22.8 million use of cash in the first quarter of fiscal 2024 was primarily due to capital expenditures of \$20.9 million.

The \$146.8 million source of cash in the first quarter of fiscal 2023 was primarily due to proceeds from maturities and sales of investments of \$136.2 million, settlement of net investment hedge of \$41.9 million, partially offset by capital expenditures of \$27.3 million.

#### Net cash provided by (used in) financing activities

Net cash used in financing activities was \$149.4 million in the first quarter of fiscal 2024 as compared to a use of cash of \$226.2 million in the first quarter of fiscal 2023, resulting in a net decrease in use of cash for financing activities of \$76.8 million.

The \$149.4 million of cash used in the first quarter of fiscal 2024 was primarily due to dividend payments of 80.2 million and taxes paid to net settle share-based awards of \$31.6 million as well as debt issuance costs of \$31.4 million.

<sup>(2)</sup> On August 30, 2023, pursuant to that certain Amendment No. 1 to Credit Agreement (the "Amendment"), the Company amended its Existing Credit Agreement (as defined below), originally dated as of May 11, 2022, among the Company, as borrower, certain of our subsidiaries, as guarantors, Bank of America, N.A., as administrative agent, and the financial institutions parties thereto as lenders (the "Existing Credit Agreement", and as amended by the Amendment, the "Amended Credit Agreement"). Under the Amended Credit Agreement, a syndicate of financial institutions and other lenders provided increases to the aggregate commitments to the revolving facility under the Existing Credit Agreement from \$1.25 billion to \$2.0 billion (the "Revolving Facility"). The Revolving Facility will mature on May 11, 2027.

Borrowings under the Revolving Facility bear interest at a rate per annum equal to, at the Company's option, (i) for borrowings in U.S. Dollars, either (a) an alternate base rate or (b) a rate based on the forward-looking SOFR term rate administered by CME Group Benchmark Administration Limited (or any successor administrator satisfactory to the administrative agent), (ii) for borrowings in Euros, the Euro Interbank Offered Rate, (iii) for borrowings in Pounds Sterling, the Sterling Overnight Index Average Reference Rate and (iv) for borrowings in Japanese Yen, the Tokyo Interbank Offer Rate, plus, in each case, an applicable margin. The applicable margin will be adjusted by reference to a grid (the "Pricing Grid") based on the ratio of (a) consolidated debt to (b) consolidated EBITDAR. Additionally, the Company will pay facility fees, calculated at a rate per annum determined in accordance with the Pricing Grid, on the full amount of the Revolving Facility, payable quarterly in arrears, and certain fees with respect to letters of credit that are issued. The Revolving Facility may be used to finance the working capital needs, capital expenditures, permitted investments, share purchases, dividends, and other general corporate purposes of the Company and its subsidiaries (which may include commercial paper backup). Additionally, up to \$250 million of the Revolving Facility will be available on a funds certain basis to fund the purchase price of the Capri Acquisition and to pay related fees and expenses. There were no outstanding borrowings on the Revolving Facility as of September 30, 2023.

As of September 30, 2023 there were no outstanding borrowings on the Bridge Facility.
- (4) On August 30, 2023, the Company entered into a definitive credit agreement (such agreement, the "New Term Loan Credit Agreement") whereby Bank of America, N.A. as administrative agent, and the other agents party thereto, and a syndicate of banks and financial institutions have committed to lend the Company, subject to the satisfaction or waiver of the conditions set forth in the Term Loan Agreement, a \$1.05 billion unsecured term loan facility maturing three years after the term loans thereunder are borrowed (the "Three-Year Term Loan Facility") and a \$350 million term loan facility maturing five years after the term loans thereunder are borrowed (the "Five-Year Term Loan Facility"; and collectively with the Three-Year Term Loan Facility, the "New Term Loan Facilities"). The Company plans to use borrowings under the New Term Loan Facilities to pay a portion of the consideration for the Capri Acquisition and to pay related fees and expenses.
- Borrowings under the New Term Loan Facilities bear interest at a rate per annum equal to, at the Company's option, either (a) an alternate base rate or (b) a rate based on the forward-looking Secured Overnight Financing Rate ("SOFR") term rate administered by CME Group Benchmark Administration Limited (or any successor administrator) plus, in each case, an applicable margin. The applicable margin will be adjusted by reference to a grid based on the ratio of (a) consolidated debt (with certain customary deductions for unrestricted cash and permitted investments) to (b) consolidated EBITDAR. The applicable margin will initially be (x) in the case of the Three-Year Term Loan Facility, 0.250% for base rate loans and 1.250% for SOFR loans and (y) in the case of the Five-Year Term Loan Facility, 0.375% for base rate loans and 1.375% for SOFR loans. As of September 30, 2023, no known events of default have occurred. Refer to Note 11, "Debt," for further information on our existing debt instruments.

We believe that our Revolving Credit Facility, Bridge Loan Facility, and Term Loans are adequately diversified with no undue concentrations in any one financial institution. As of September 30, 2023, there were 18 financial institutions participating in the Revolving Facility, 14 financial institutions participating in the Bridge Loan Facility, and 24 financial institutions participating in the Term Loans, with no one participant maintaining a combined maximum commitment percentage in excess of 20%. We have no reason to believe at this time that the participating institutions will be unable to fulfill their obligations to provide financing in accordance with the terms of the facility in the event we elect to draw funds in the foreseeable future.

We have the ability to draw on our credit facilities or access other sources of financing options available to us in the credit and capital markets for, among other things, acquisition or integration-related costs, our restructuring initiatives, settlement of a material contingency, or a material adverse business or macroeconomic development, as well as for other general corporate business purposes.

Management believes that cash flows from operations, access to the credit and capital markets and our credit lines, on-hand cash and cash equivalents and our investments will provide adequate funds to support our operating, capital, and debt service requirements for fiscal 2024 and beyond. There can be no assurance that any such capital will be available to the Company on acceptable terms or at all. Our ability to fund working capital needs, planned capital expenditures, and scheduled debt payments, as well as to comply with all of the financial covenants under our debt agreements, depends on future operating

performance and cash flow. This future operating performance and cash flow are subject to prevailing economic conditions, and to financial, business and other factors, some of which are beyond the Company's control.

To improve our working capital efficiency, we make available to certain suppliers a voluntary supply chain finance ("SCF") program that enables our suppliers to sell their receivables from the Company to a global financial institution on a non-recourse basis at a rate that leverages our credit rating. We do not have the ability to refinance or modify payment terms to the global financial institution through the SCF program. No guarantees are provided by the Company or any of our subsidiaries under the SCF program. Refer to Note 2, "Basis of Presentation and Organization," for additional information.

Reference should be made to our most recent Annual Report on Form 10-K and other filings with the SEC for additional information regarding liquidity and capital resources. During the first quarter of fiscal 2024 capital expenditures and cloud computing implementation costs were \$28.6 million. The Company expects total fiscal 2024 capital expenditures and cloud computing cost to be approximately \$200.0 million. Certain cloud computing implementation costs are recognized within Prepaid expenses and Other assets on the Condensed Consolidated Balance Sheets.

#### ***Stock Repurchase Plan***

On May 12, 2022, the Company announced the Board of Directors authorized the additional repurchase of up to \$1.50 billion of its common stock (the "2022 Share Repurchase Program"). Pursuant to this program, purchases of the Company's common stock will be made subject to market conditions and at prevailing market prices, through open market purchases. Repurchased shares of common stock will become authorized but unissued shares. These shares may be issued in the future for general corporate and other purposes. In addition, the Company may terminate or limit the stock repurchase program at any time. As of September 30, 2023 the Company had \$800 million of additional shares available to be repurchased as authorized under the 2022 Share Repurchase Program. In August 2023, the Company suspended its share repurchase activity in connection with the Merger Agreement with Capri. Refer to Note 5, "Acquisitions," for further information. There were no shares repurchased during the three months ended September 30, 2023.

#### ***Capri Holdings Limited Acquisition***

On August 10, 2023, the Company entered into a Merger Agreement. The Company intends to finance the Capri Acquisition, inclusive of related fees and expenses, with the net proceeds of additional permanent financing, new term loans, cash on hand, cash on hand at Capri and anticipated future cash flow. Refer to Note 5, "Acquisitions" and Note 11, "Debt" for further information.

### **CRITICAL ACCOUNTING POLICIES AND ESTIMATES**

The Company's significant accounting policies are described in Note 3 to the audited consolidated financial statements in our Annual Report on Form 10-K for fiscal 2023. Our discussion of results of operations and financial condition relies on our condensed consolidated financial statements that are prepared based on certain critical accounting policies that require management to make judgments and estimates which are subject to varying degrees of uncertainty. While we believe that these accounting policies are based on sound measurement criteria, actual future events can and often do result in outcomes that can be materially different from these estimates or forecasts.

For a complete discussion of our critical accounting policies and estimates, see the "Critical Accounting Policies and Estimates" section of the Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for fiscal 2023. As of September 30, 2023, there have been no material changes to any of the critical accounting policies.

The Company performs its annual impairment assessment of goodwill as well as brand intangibles at the beginning of the fourth quarter of each fiscal year. In all fiscal years, the fair values of our Coach brand reporting units significantly exceeded their respective carrying values. The fair values of the Kate Spade brand reporting unit and indefinite-lived brand as of the fiscal 2023 testing date exceeded their carrying values by approximately 20% and 40%, respectively. Several factors could impact the Kate Spade brand's ability to achieve expected future cash flows, including the optimization of the store fleet productivity, the success of international expansion strategies, the impact of promotional activity, continued economic volatility and potential operational challenges related to macroeconomic factors, the reception of new collections in all channels, and other initiatives aimed at increasing profitability of the business. Given the relatively small excess of fair value over carrying value as noted above, if profitability trends decline during fiscal 2024 from those that are expected, it is possible that an interim test, or our annual impairment test, could result in an impairment of those assets.

### ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The market risk inherent in our financial instruments represents the potential loss in fair value, earnings or cash flows, arising from adverse changes in foreign currency exchange rates or interest rates. The Company manages these exposures through operating and financing activities and, when appropriate, through the use of derivative financial instruments. The use of derivative financial instruments is in accordance with the Company's risk management policies, and we do not enter into derivative transactions for speculative or trading purposes.

The quantitative disclosures in the following discussion are based on quoted market prices obtained through independent pricing sources for the same or similar types of financial instruments, taking into consideration the underlying terms and maturities and theoretical pricing models. These quantitative disclosures do not represent the maximum possible loss or any expected loss that may occur, since actual results may differ from those estimates.

#### Foreign Currency Exchange Rate Risk

Foreign currency exposures arise from transactions, including firm commitments and anticipated contracts, denominated in a currency other than the entity's functional currency, and from foreign-denominated revenues and expenses translated into U.S. dollars. The majority of the Company's purchases and sales involving international parties, excluding international consumer sales, are denominated in U.S. dollars and, therefore, our foreign currency exchange risk is limited. The Company is exposed to risk from foreign currency exchange rate fluctuations resulting from its operating subsidiaries' transactions denominated in foreign currencies. To mitigate such risk, certain subsidiaries enter into forward currency contracts. As of September 30, 2023 and July 1, 2023, forward currency contracts designated as cash flow hedges with a notional amount of \$882.4 million and \$842.3 million, respectively, were outstanding. As a result of the use of derivative instruments, we are exposed to the risk that counterparties to the derivative instruments will fail to meet their contractual obligations. To mitigate the counterparty credit risk, we only enter into derivative contracts with carefully selected financial institutions. The Company also reviews the creditworthiness of our counterparties on a regular basis. As a result of the above considerations, we do not believe that we are exposed to any undue concentration of counterparty credit risk associated with our derivative contracts as of September 30, 2023.

The Company is also exposed to transaction risk from foreign currency exchange rate fluctuations with respect to various cross-currency intercompany loans, payables and receivables. This primarily includes exposure to exchange rate fluctuations in the Chinese Renminbi, the British Pound Sterling and the Japanese Yen. To manage the exchange rate risk related to these balances, the Company enters into forward currency contracts. As of September 30, 2023 and July 1, 2023 the total notional values of outstanding forward foreign currency contracts related to these loans, payables and receivables were \$278.1 million and \$272.3 million, respectively.

The fair value of outstanding forward currency contracts included in current assets at September 30, 2023 and July 1, 2023 was \$54.0 million and \$39.0 million, respectively. The fair value of outstanding foreign currency contracts included in current liabilities at September 30, 2023 and July 1, 2023 was \$2.6 million and \$0.3 million, respectively. The fair value of these contracts is sensitive to changes in foreign currency exchange rates.

The Company is also exposed to foreign currency exchange rate fluctuations with respect to net investment hedges. As of September 30, 2023 and July 1, 2023, we have multiple fixed to fixed cross currency swap agreements with aggregate notional amounts of \$1.20 billion and \$1.20 billion, respectively, to hedge our net investment in Euro-denominated subsidiaries and Japanese Yen-denominated subsidiaries against future volatility in the exchange rates between the United States dollar and their local currencies. The fair values of outstanding derivative contracts related to net investment hedges included in long-term assets at September 30, 2023 and July 1, 2023 was \$35.1 million and \$13.1 million, respectively. The fair values of outstanding derivative contracts related to net investment hedges included in long-term liabilities at September 30, 2023 and July 1, 2023 was \$82.4 million and \$90.5 million, respectively. Under the term of these contracts, we will exchange the semi-annual fixed rate payments on United States denominated debt for fixed rate payments of 2.4% and 2.7% in Euros, and 0.1% and (0.3)% in Japanese Yen. Refer to Note 8, "Derivative Investments and Hedging Activities," for additional information.

#### Interest Rate Risk

The Company is exposed to interest rate risk in relation to its indebtedness, which includes a \$2.0 Billion Revolving Credit Facility, New Term Loan Facilities, \$500.0 Million 2027 Term Loan, the 2032 Senior Notes, 2027 Senior Notes, and 2025 Senior Notes (collectively the "Senior Notes") and investments. Refer to Note 11, "Debt," for additional information.

To manage the risks associated with interest rate movements on our debt obligation, including future debt issuances, the Company enters into interest rate derivative contracts. To the extent that these interest rate derivative contracts designated as cash flow hedges are highly effective in offsetting changes in the value of the hedged items, the related gains (losses) are initially deferred in AOCI and subsequently recognized in the Consolidated Statements of Operations as interest income (expense), while the debt obligation is outstanding. As of September 30, 2023, the total notional value of the outstanding interest rate derivative contracts was \$1.5 billion. The fair value of outstanding interest rate derivative contracts included in

current assets at September 30, 2023 was \$15.6 million. The fair value of these contracts is sensitive to changes in benchmark interest rates. Refer to Note 8, "Derivative Investments and Hedging Activities," for additional information.

The Company is also exposed to changes in interest rates related to the fair value of the Senior Notes. At September 30, 2023, the fair value of the 2032 Senior Notes, 2027 Senior Notes, and 2025 Senior Notes was approximately \$367 million, \$367 million, and \$296 million, respectively. At July 1, 2023, the fair value of the 2032 Senior Notes, 2027 Senior Notes, and 2025 Senior Notes was approximately \$399 million, \$372 million, and \$295 million respectively. These fair values are based on external pricing data, including available quoted market prices of these instruments, and consideration of comparable debt instruments with similar interest rates and trading frequency, among other factors, and are classified as Level 2 measurements within the fair value hierarchy. The interest rate payable on the 2027 Senior Notes will be subject to adjustments from time to time if either Moody's or S&P or a substitute rating agency (as defined in the Prospectus Supplement furnished with the SEC on June 7, 2017) downgrades (or downgrades and subsequently upgrades) the credit rating assigned to the respective Senior Notes of such series.

The Company's investment portfolio is maintained in accordance with the Company's investment policy, which defines our investment principles including credit quality standards and limits the credit exposure of any single issuer. The primary objective of our investment activities is the preservation of principal while maximizing interest income and minimizing risk. We do not hold any investments for trading purposes.

## **ITEM 4. CONTROLS AND PROCEDURES**

### **Disclosure Controls and Procedures**

We have evaluated under the supervision and with the participation of management, including our principal executive and principal financial officers, the effectiveness of our disclosure controls and procedures, as is defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended, as of the end of the fiscal quarter covered by this quarterly report. Based on that evaluation, our principal executive and principal financial officers have concluded that the Company's disclosure controls and procedures were effective at the reasonable assurance level as of the fiscal quarter-end covered by this quarterly report on Form 10-Q.

### **Changes in Internal Control over Financial Reporting**

There were no changes in the Company's internal control over financial reporting during the first quarter of 2024 that were identified in connection with management's evaluation required by paragraph (d) of Rules 13a-15 and 15d-15 under the Securities Exchange Act of 1934, as amended, that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

## **PART II – OTHER INFORMATION**

### **ITEM 1. LEGAL PROCEEDINGS**

The Company is involved in various routine legal proceedings as both plaintiff and defendant incident to the ordinary course of its business, such as to protect Tapestry, Inc.'s intellectual property rights, litigation instituted by persons alleged to have been injured by advertising claims or upon premises within the Company's control, contract disputes, insurance claims and litigation, including wage and hour litigation, with present or former employees.

Although the Company's litigation can result in large monetary awards, such as when a civil jury is allowed to determine compensatory and/or punitive damages, the Company believes that the outcome of all pending legal proceedings in the aggregate will not have a material effect on the Company's business or condensed consolidated financial statements. There have been no material developments with respect to any previously reported proceedings.

### **ITEM 1A. RISK FACTORS**

Refer to Part I, Item 1A, "Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended July 1, 2023 for a description of certain significant risks and uncertainties to which our business, financial condition and results of operations are subject.

**ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES, USE OF PROCEEDS AND ISSUER PURCHASES OF EQUITY SECURITIES**

On May 12, 2022, the Company announced that its Board of Directors authorized a common stock repurchase program to repurchase up to \$1.50 billion of its outstanding common stock (the "2022 Share Repurchase Program"). Purchases of the Company's common stock were executed through open market purchases, including through purchase agreements under Rule 10b5-1. The authorized value of shares available to be repurchased under this program excludes the cost of commissions and excise taxes. As of September 30, 2023 the Company had \$800 million of additional shares available to be repurchased as authorized under the 2022 Share Repurchase Program. In August 2023, the Company suspended its share repurchase activity in connection with the Merger Agreement with Capri. Refer to Note 5, "Acquisitions," for further information. There were no shares repurchased during the three months ended September 30, 2023.

## ITEM 5. OTHER INFORMATION

There was no adoption, modification or termination of any Rule 10b5-1 plan or other trading arrangements by our directors and officers during the quarter ended September 30, 2023.
